Home Delivery of Mail Will Start Monday Morning

Routes of Foot and Mounted Carriers in Antioch Are Established

Antioch's home mail delivery service will start Monday.

William Dow will serve as foot carrier in delivering mail in the central part of the village and Ed Pratt, former shipping clerk at the Pickard China Co. will serve as mounted carrier.

Both will start their deliveries at 8:30 a. m. Pratt will first deliver parcel post and collect mail from the depositories near the village hall, near St. Ignatius church, at 906 Spafford st., and on Main st. near First st.

Then Pratt will deliver mail on Orchard st. and Depot st. foot. Next he will service the business area at Rtes. 173 and 21, go to Henningsen Ct., serve the business area at Rtes. 59 and 173; next he will go to David st., Hillside, Windsor dr., Highland dr., Parkway, Curnes sub., and Oakwood Knolls. Window Service Curtailed

Postmaster Roy Kufalk announced there will be no window delivery service except to transients.

Residents will either get their mail through home delivery or in lock boxes," Kufalk said.

Postal experts were out from Chicago last Thursday and set up the sorting cases for the carriers by street and number.

Because there are no names on the sorting case, it is extremely important that street and house numbers are placed on all mail. Postmaster Kufalk again reminded the people. He urged them to notify correspondents of this need.

The public is also urged to install mail receptacles. No mail can be delivered to homes without these receptacles.

Many of the down town business houses will continue to use the lock boxes. That accounts for the fact that they have not put numbers at their doors, although this would be advantageous at any time.

Pick-up Schedule Planned
Postmaster Kufalk said that the postal experts would be out today to place the time schedule on the relay boxes and receptacles about the village.

A Soo Line train arrives at 2:30 a. m. and this mail will be sorted and village mail turned over to the various carriers. August Bureau, Oakwood Knolls, already has been transferred from Chicago, and Ray Wisniewski, also of Oakwood Knolls will be transferred from Chicago Monday to serve as clerks. Many house numbers and mail receptacles have been purchased from Antioch stores during the past week by residents getting ready for the new home delivery.

Baseball Opener With Wilmot Next Thursday May See Foul Weather

Coach Larry Leon Has Only Four Lettermen to Bolster Team

Around four lettermen Coach Larry Leon will have to build his baseball team this year at Antioch Township High School.

And building a team will be slow process with the kind of weather that has prevented any out of doors practice.

All this and the first game scheduled for next Thursday with Wilmot High there.

Returning lettermen on the Sequoit team this year are infielders Chuck Larson, Lon Christensen, Frank Ferdon, and outfielder, Bill Barnstable.

Larson, Christensen and Barnstable are seniors while Ferdon is a junior.

Junior candidates who saw action with last season's Frosh-Soph squad are Richard Jonas, catcher; Elvin Meyer, Ken Applebeem and Ken Hellstern, infielders; and Tom Sanhamel, Ray Hartman, Fred Faust, Bob James and Pete Zalatoris, outfielders.

Ray Teml and Jim Portalski, sophomores, and Don Pyle, freshman, looked impressive in indoor drills and are likely to see considerable action in varsity competition, Coach Leon said.

Newcomers seeking births on this year's team are Jay Cribb, a senior; Dennis Goodenough, Ken Torkelson, Pat Roach, Ed Kadlec, Paul Schroeder, Frank Sabesta, and Ray Geldon, juniors.

Lost from last year's squad by graduation were Wayne Swanson, Frank Walsh, Jerry Meyer, Jim Stonis and Sid Parker.

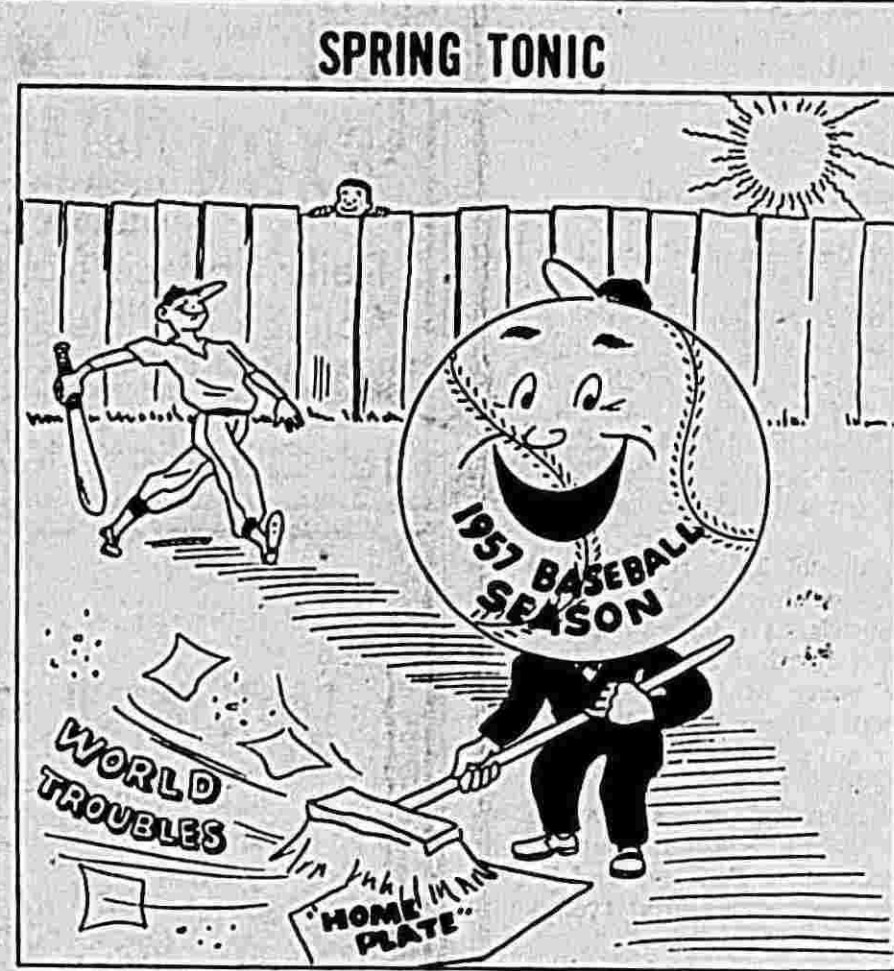

Walsh and Meyer, who were selected on the all-conference team last year, will be missed because of their batting strength. Lack of pitchers will be Antioch's biggest problem.

The schedule for the season is:
April 4 — Wilmot, there.
April 9 — Grayslake, here.
April 12 — Wauconda, there.
April 16 — Palatine, here.
April 18 — Elia Vernon, there.
April 23 — Glenbrook, here.
April 26 — Fenton, there.
April 30 — Grant, here.
May 3 — Grayslake, there.
May 7 — Palatine, there.
May 10 — Elia Vernon, here.
May 14 — Wauconda, here.
May 17 — Glenbrook, there.
May 21 — Fenton, here.
May 24 — Grant, there.

Reservations Still Accepted

Mrs. William Brook is still accepting reservations for the Woman's Club tour, but would like to have them all in by Saturday. A bus will leave the Scout Home at 9:30 a. m. Monday for a trip to Chicago with time for shopping, luncheon at the Union League Club as guests of the State Bank of Antioch and a tour of the Chicago Tribune. The newspaper tour has been limited to 40 persons, but there is no limit to the number who may attend the luncheon.

To become successful, one needs to know how to get along with everyone, and ahead of some.

Seven Candidates for Posts on High School Board of Education

President Fred Scott, and Sec'y L. A. Biel Not Candidates

Five candidates for three year terms and two for a two-year term will appear on the Antioch Township High School ballot when the voters go to the polls Saturday, April 13.

Aspiring to the positions vacated by Fred Scott and Louis A. Biel, incumbents who will not seek re-election are Millburn C. Cain, Antioch; Robert C. Denman, Millburn; Roy W. Frasier, Grass Lake; H. Lisle Rogers, Antioch and John F. Romer, Rte. 59.

Candidates for the two-year term to succeed Roman Vos, who resigned, are Robert F. Chandler, Rte. 173, Little Silver Lake, and Arthur W. Seekatz, Lake Villa. Seekatz is a building contractor, and Chandler is the former Antioch High School teacher whose contract was not renewed when Principal Albert L. Dittman and he could not agree. Chandler continued to reside in rural Antioch, and took other work.

The list represents about the same number of candidates as a year ago when the contests were close.

Practically all parts of the district are represented. While any candidate may withdraw tomorrow (Friday) the list of high school board aspirants probably will remain unchanged.

Antioch Grade School

Unless there is a withdrawal of candidates for the Antioch Community Consolidated Grade School Board the ballot will contain the names of Arthur Letkey, Sam Lombardo, Elroy Anderson, Harold E. Cardiff, Sr., incumbent, and Charles L. Wertz, incumbent. Two positions are to be filled.

No opposition appeared to the candidacy of Mrs. Lucile Kuchenmeister and Russell Roepenack for re-election to the Channel Lake Grade school board.

Frank G. Edwards, 71, Newport Twp. Resident Dies of Heart Attack

Frank G. Edwards, 71, prominent Newport township resident, residing in Wadsworth rd., died at 11 a. m. Friday following a heart attack.

Mr. Edwards was stricken as he loaded material onto a truck at the home of his daughter in Libertyville. A taxicab driver took him to the office of Dr. C. O. Edwards in that village where his death occurred.

Mr. Edwards, a retired painter and decorator, was born Dec. 26, 1885 in Newport township, and resided in that area all of his life. He was deputy sheriff for nine years and served as traffic patrolman at the Millburn church for many years. He was a member of that church. He was also a member of the Newport fire department.

He is survived by the widow, Corena, who as Corena Kaluf, he married March 20, 1912 in Waukegan. Also surviving are the son, John V. Edwards of Libertyville; two daughters, Mrs. Ruth Hartman, Glendale, Calif., and Marian Edwards, Libertyville; two brothers, Bert and Warren, both of Antioch; two sisters, Mrs. Robert Erwin and Mrs. Eva Alling, both of Waukegan. There are six grandchildren.

Funeral services were held at 2 p. m. Monday at the Millburn Congregational church with the Rev. L. H. Messersmith officiating. Burial was in Hickory Union cemetery.

Mrs. Edwards is the Millburn correspondent for the Antioch News.

Revenge!

February 25th marked an important anniversary. But it wasn't one that was received with cheers. It was the 44th anniversary of the federal income tax.

A look backward is in order. In 1913, in the tax's infancy, the normal rate was one per cent and the highest surtax was six per cent.

Today the tax starts at 20 per cent, on the lowest taxable incomes, and rises to a high of 91 per cent.

The Portland Oregonian makes this wry and apt comment: "We didn't invent the income tax... The British started using it to support their military campaigns in the late 1700's, shortly after we kicked them at Yorktown and won our independence. Well, they have their revenge."

Polio Vaccination Makes Sense

Suppose someone took you aside and said: "You have an enemy who may waylay you and cripple you for life. But I know how you can stop this enemy. You'll have to act fast. It won't cost much money, and it will take only 180 seconds of your time."

If you knew the facts were true, you'd take him up on it, wouldn't you?

Well, the facts are true. The enemy is paralytic polio. If you're under 40 years old, you're a possible victim. If polio strikes, you may face a life shattered by disease and disability.

There is no CURE for paralytic polio, but there is a way to PREVENT it. The preventive is the Salk vaccine. It is safe and it works. Three properly spaced shots, at 60 seconds a shot—gives you protection.

Over 45,000,000 Americans have been smart enough to get this protection. But 60,000,000 in the susceptible age group have been foolhardy enough to neglect it.

Don't be one of the foolhardy ones. The polio season starts soon. You still have time to safeguard yourself and your family if you act at once. Go to your doctor or your clinic now. Vaccinate—before it's too late!

Tax the Users

The Civil Aeronautics Authority expects to spend a record \$385 million during the next fiscal year on the nation's airways system. This is simply a reflection of the hard fact that air traffic has become so great that present facilities are inadequate and can no longer be trusted to safely handle the job.

Almost no one will dispute the need for this kind of spending. But another point arises—who,

besides the general taxpayers, should pay for it?

Commercial transport planes account for 30 per cent of the use of CAA-maintained facilities. If these carriers pay their share of next year's CAA allocations, the bill will come to \$155 million. But last year they paid only \$20 million, all of it in fuel taxes.

According to the Wall Street Journal, the situation is serious enough to have attracted the concern of President Eisenhower. It quotes L. W. Burton of the Department of Commerce as expressing the President's policy in these words: "Where the government renders a special service, there should be a tax on the users."

That principle should apply in other fields in addition to CAA-spending. Of the commercial carriers only the railroads wholly pay their own way. All the others are subsidized, directly or indirectly. That is a mighty important matter, in the light of such developments as the multi-billion dollar highway bill. It's time that the users of government-supported facilities—which means taxpayer-supported—did more paying.

Write Your Congressman!

A Congressman can know the temper of the folks back home only if they communicate it to him in plain words.

Startling number of Americans are doing just that—and on a common theme: Cut the budget! Many Congressmen are surprised by the volume and intensity of this mail. Possibly they thought their constituents had been numbed to multibillion budgets and the allegedly painless extraction of a sizable portion of their earnings at the source every payday.

But the politicians should have remembered the proverbial straw that broke the camel's back.

President Eisenhower's \$71.8 billion budget seems to be having precisely that effect.

And, for all their brave oratory and economy spiels, most Congressmen will do little about cutting the budget—unless they are ordered by the taxpayers to get in there and slash.

That's a job for all taxpayers, not just a vociferous handful. It's a job for millions of taxpayers who never before have written their Senators and Representatives—and, for that matter, may not even know who they are or where to address them.

If enough people howl—and howl in writing, in letters addressed to their Senators and Representatives—the administration's horrifying \$71.8 billion budget can be cut to sensible proportions. And dormant recommendations from the Hoover Commission can be activated, for permanent multibillion economies.

If there's a real hope—and there is—of trimming the fat out of government spending dealing inflation a body blow and paying the way for tax and debt reduction, that hope rests with you and your judicious use of a pen, a sheet of paper, an envelope, a stamp and the nearest mailbox. If you can't wait, telegraph.

All hope of fighting government-caused inflation, of bringing tax relief within sight rests with you and your indignation, translated into blunt words readily understood by Congressmen.

Information Wanted on Indian Burial Places

Urbana-Champaign, Ill. — The first comprehensive listing of archaeological finds and sites in Illinois is being compiled at the University of Illinois under direction of Prof. John C. McGregor, president of the statewide Illinois Archaeological Survey.

Anyone knowing sites where Indian materials have been found, where burials, villages, or other points are known or reputed to have been, is asked, as a public service, to report them.

With the expansion of communities, highways, and land cultivation and passing of the older generation,

much of this information will be lost unless recorded, Prof. McGregor said.

The listing and the comprehensive map of Illinois archeology being prepared will be of great value to all future studies of Illinois' past. It is being carried out by Miss Elaine Blum, on leave for the work from the Chicago Museum of Natural History (Field Museum).

Everyone having information is urged to write to the Archeological Survey, University of Illinois Urbana.

Cancer Drive Slogan "Fight Cancer with a Check-up and a Check"

For the second successive year the American Cancer Society will use the slogan "Fight Cancer With a Check-up and a Check" in the annual Cancer Crusade which begins April 1 it was announced today by Mrs. Morris Pickus Antioch chairman of the 1957 educational and fund-raising campaign.

"The Society received a flood of inquiries about the checkup last year," Mrs. Pickus said, "so we know that lives must have been saved that would otherwise have been lost. Right here in Lake county a great many people acted on our advice and had health checkups."

"That is the best possible reason for using the slogan again this year. We want to drive home this idea of 'Fight Cancer With a Check-up and a Check', until we save those thousands of lives that can be saved. They are lost mainly because can-

cer is not discovered and treated in the earliest stages."

The chairman said that there has been dramatic progress in cancer control and much of the credit must go to the Cancer Society's educational program.

AMERICA'S NUMBER ① ROAD CAR!**

Drive the Champ!

First the automotive writers said, "Keep your eye on Pontiac... this one's a sleeper!" Then the California Highway Patrol chose Pontiac after three days of grueling competitive tests of six of America's top performers. Next, in the top stock car event of the year, NASCAR's 160-mile Daytona Grand National*, Pontiac outperformed everything on the beach including super-charged and fuel injection cars!

NOW IT'S YOUR TURN—Slip into that roomy driver's seat. Gently nudge the accelerator and feel Pontiac's barrel-chested 347 cu. in. Strato-Streak V-8 go into action. Put its instant response and Precision-Touch Control to a traffic test. Choose your own rough stretch and feel it disappear under Pontiac's Level-Line Ride. Then head for the open road and give that deep-breathing power plant a chance to show its mettle in the fresh open air. Man—you've got a champ on your hands for sure! And to make it even more fun—there's a chance to win a free Pontiac! Just follow the instructions at the right—you may be a winning driver!

HERE'S ALL YOU DO!

- 1 Go to your nearest authorized Pontiac dealer during April and test drive the 1957 Pontiac.
- 2 Fill out the official entry blank and deposit it with your dealer. That's all there is to it!

Food Market Survey

Chicago—Food outlets feature poultry in pre-Easter retail promotional previews this week. Fryer prices drop at wholesale on larger receipts, while most classes of beef and lamb increase on continued light arrivals. Steady pork prices qualify for the secondary value position in meats.

Eggs, rated mostly unchanged to just slightly higher in most stores, should soon reflect a lenten-demand influence on price, although they still have the value lead over competing high-protein foods.

Halibut, among the fresh and frozen fish lines, is agreed upon by

most Chicago retail buyers as a top value consideration for low cost meatless meals.

Produce lines show potatoes, carrots, lettuce, celery and asparagus at perhaps their lowest seasonal

price levels. Short crop apples, particularly eastern McIntosh under special storage conditions, are about as high as they will go.

Margarine and vegetable shortenings drop a penny per pound. Lower

prices are noted for canned tomato juice, asparagus, citrus juices. Frozen orange concentrate supplies—now more than 20 per cent greater than a year ago—quote at new low prices.

THE MAN WHO OWNED
MOBY DICK

It was actually a too-big car. At gas pumps, it drank like a fish. So he called it "Moby Dick."

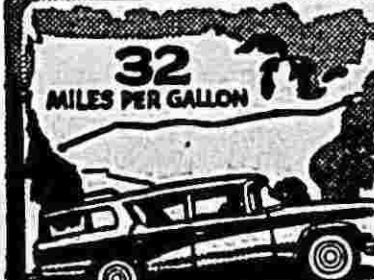

It even had fins like a fish. Parking it was like trying to squeeze a whale into a goldfish bowl.

He thought about trading "Moby" for an economical little foreign car. It was too little for 5 kids.

So he bought Rambler, only car with room for six-footers, plus European car economy, handling ease.

It was a Rambler "6" that set the NASCAR cross country record of 32 miles per gallon with overdrive.

Rambler's 1st in trade-in value among all low-priced cars, because it's the smartest buy, new or used.

Ill. Wesleyan Students Will Present Play at Methodist Hall April 13

A cast of 15 students will make up the Illinois Wesleyan University School of Dramatics and Speech touring company which will present a dramatic program at the Methodist church at 8 p. m. on April 13. Directing the touring group is Dr. Lawrence E. Tucker, director of the School. He is assisted by John Ficca, technical director.

They will present "Everyman," a fifteenth century English morality play, and "A Sleep of Prisoners," a highly imaginative, poignant drama about four prisoners of war locked up in a church in enemy territory as they struggle to understand themselves and the world. Both plays portray deeply moving religious experiences.

This is the third season for the Wesleyan touring group which was enthusiastically received by its audiences in the past two years.

Students are chosen to participate in the touring program on the basis of their excellence in performance or on their outstanding contributions in technical production. Courses in dramatics at Illinois Wesleyan are offered as part of a liberal education; as training for teachers and directors in schools; and as preparation for work in the theatre, either community or professional.

Tickets on Sale for Mr. Barry's Etchings

The stage of Antioch Township High School will be swarming with counterfeiters and T-men in the production of "Mr. Barry's Etchings", the Broadway laugh hit which will be presented by the Senior Class on April 5th and 6th at 8 p. m.

"Mr. Barry's Etchings" is the comedy about a good-hearted man who suddenly finds the doors of Alcatraz stretching wide for him—and all because of a seemingly harmless hobby, engraving fifty-dollar bills.

At the time he didn't intend to go into competition with the Treasury Department, but what with some of his friends in town needing help, and various other causes, Mr. Barry comes to their aid. Barry's philanthropy, of course delights everyone—except the government.

Frank Albert will be seen in the leading role of the madcap Mr. Barry, while other roles will be played by Judy Horton, Francis Dornier, Lynn Bolton, Mary Lou Seyfarth, Lynn Gray, Barbara Helligenthal, Celia Hojem, Dave Valkenaar, Elmer Oelkers, Jack Elliott, Judy Hostetter and Jay Cribb.

Tickets may be purchased from any member of the Senior Class or at the door.

Coach Stu Holcomb Tells School Boys How to Win Games

For high school teams to win, players must train, abide by rules and regulations and diligently strive to learn basic skills in sports, cooperating with their coaches.

This was the opinion of Stu Holcomb, athletic director at Northwestern University who addressed a crowd of 245 persons made up of athletes, cheerleaders, and parents, Lions Club members and guests at the annual Antioch Township High School Athletic Banquet Monday night.

Coach Holcomb stressed the need for the desire to win on the part of all boys, and mentioned that many times there is a very fine line between winning and losing. He illustrated this with an account of a victory of his Purdue team which gave that University a tie for the Big Ten Conference, whereas if it had lost they would have ended the season in sixth place.

The Athletic banquet was sponsored by the Antioch Lions Club. Among the awards given out were those for the most valuable player. Richard Sreh received the trophy in football and Jerry Huml in basketball.

Huml also received the Roger Lang memorial trophy for the best free throw average.

The Girls Athletic Association decorated the tables and furnished a staff of efficient waitresses to serve the dinner. The Future Homemakers of America did the table setting; Miss Kathleen Barkman, home economics instructor, with the help of mothers of the members of the basketball squad, supervised the dining room.

Toastmaster Bill Brook supplied the fun of the evening when he introduced Principal Schnurr from Wilmet High School who presented fictitious awards to Lion Irving Carey.

Jack Fields, program chairman for the Athletic Banquet, arranged for talks by Richard Sreh, president of the "A" Club, and Principal Albert Dittman.

The Rev. Edmond Hood gave the invocation and the coaches of the various squads introduced the 110 athletes.

The 1957 Banquet Committee was composed of Jack Fields, chairman, Ted Larson, K. F. Dietrick, and Albert Dittman.

Over 1,600,000 Haven't Filed 1956 Tax Returns

Although the deadline is less than one month away, 1,600,000 taxpayers have not yet filed their federal income tax returns. H. Alan Long, director of the Chicago district office revealed today that only 1,200,000 returns have been received so far in this filing period.

Mr. Long urged taxpayers to start at once to prepare their 1956 returns. As time passes it becomes increasingly difficult to assemble all the essential financial records of last year: receipted bills, cancelled checks, and other papers needed to prepare an accurate tax return. In addition, the longer the taxpayer waits, the more pressing becomes the obligation, and in the ensuing haste some essential items might be overlooked or incorrectly entered.

In Chicago telephone assistance for tax return preparation is available by calling Dearborn 2-4500. In other areas the nearest revenue office may be called. Long pointed out that as the deadline nears, calls increase and your call might not get through immediately.

Don't delay any longer. The deadline is Monday, April 15th.

W. S. C. S. TO MEET WEDNESDAY, APRIL 3

A meeting of the Women's Society of Christian Service of the Methodist Church will be held Wednesday, April 3, at 1:00 p. m. in Wesley hall. Mrs. Elmer Hunter will lead the Devotions. There will be a panel discussion "Our Plus becomes a Cross", led by Mrs. George Good. Mrs. William Petty and her committee will serve dessert luncheon. All are welcome.

Maintenance men in eastern coal mines are heard calling these days for the "strawberry grease." A new lubricant for machinery, recently introduced into the mines was quickly named for its distinctive red coloration.

The time to dig a well is before you get thirsty; to save money, before you are broke.

A.T.H.S. Council Gets State-wide, National Recognition for Deeds

The Student Council of the Antioch Township High School has received both state-wide and national recognition during the past month.

The Illinois Association of Student Councils has selected and published in the "Reporter," a newspaper sent to all high schools in the State of Illinois, a very fine article in regard to the Christmas projects of the Council including their activities to promote a good spirit throughout the school by a special program and many decorations; by their donations of canned goods to needy organizations and by their charitable gifts in money to each of five worthy organizations.

In the March issue of the Newsletter published by the Crusade for Freedom in New York City, there appears an article and picture of the students of the Antioch Student Council who worked to promote the Crusade in the Antioch area. In both the article and by a special letter these young people were commended for their fine work in crusading for a better world.

Many copies of the above issues were made available to the students who desired them.

Gems of Thought PEACE

The basic issue, blunt and unvarnished, is peace or perish. But mankind and our civilization will not perish. Of that I feel confident.

Peace is the promise and reward of righteousness.—Mary Baker Eddy.

Only by a new attitude of mind ruling within it can the state attain to peace within its borders.—Albert Schweitzer.

If we educate enough of our individuals in the fundamentals of peace and security, frictions and irritations between countries will rapidly diminish.—George C. Marshall.

An essential step toward peace is to get the public to conceive of a world without war.—Emily Green Balch.

ILLINOIS TAX FACTS

The proposed fiscal 1958 Federal budget, \$72 billion, is just slightly more than total Federal spending for the first 132 years of our national life. As calculated, total spending from 1789 to and including 1921 amounted to \$71.5 billion. Conscious of such facts, no wonder the American public realizes that the most pressing need facing them today is a reduction in Federal government spending. But how can this be done?

The answer to that question is twofold. First, adoption of the remaining 61 per cent of the Hoover Commission recommendations will mean a savings of \$5 billion a year. This over-all reduction would result in a tax saving of about \$100 annually for the average American family.

Second, adoption by Congress of a resolution (House Resolution No. 170) offered by Representative John Ray (N. Y.) would save approximately \$8 billion for the taxpayers' pocketbooks. This resolution simply states that with the fiscal year beginning July 1, 1957, the total amount which may be appropriated may not exceed \$65 billion, and that expenditures for said year shall not exceed \$65 billion. Revenue received during this fiscal year in excess of \$65 billion shall be applied 1/2 to the reduction of the national debt and the other half to the reduction of taxes.

Such "hold the line" action by Congress in adopting the Hoover Commission recommendation and the Ray Resolution would not only mean a cut in individual income tax rates, but would also mean a reduction in the national debt.

The decisive thing is not the type of armaments used, not the state of armament; the decisive thing is the state of the spirit.—Charles Malik.

Health Talk

When It's a Goiter

When a goiter develops, the culprit gland involved is the thyroid, a butterfly shaped structure located in the neck. Whether it is toxic or non-toxic, whether it is producing symptoms or not, any enlargement of the thyroid gland is a goiter, the Educational Committee of the Illinois State Medical Society points out in Health Talk.

The thyroid secretes a hormone, normally present in the body, and sends it directly into the blood stream where one function among others is to regulate the rate at which fuel is burned in the body. If the thyroid is overactive, the fuel of the body is burned rapidly; if it is underactive, it burns at a slower rate. This burning of body fuels is called metabolism.

There are different types of goiter, but the three most common are non-toxic, toxic, and cancerous.

In the non-toxic type, which is found commonly in the Great Lakes region, a deficiency of iodine is usually the cause. The hormone of the thyroid gland contains 60 per cent by weight of iodine. If there is not sufficient iodine in the food intake to manufacture the required amount of hormone, the thyroid gland works overtime and becomes enlarged in a futile effort to com-

Trophy Memorializes Donor's Son

H. W. Lang is shown presenting to Jerry Huml the free throw trophy given as a memorial to his son, Roger, who while a member of the Antioch Township High School basketball team, died in an accident. Huml, a senior, had a foul throwing average of .753. The trophy was presented during the Athletic banquet.

pensate for the deficiency. Using adequate iodine intake. Iodized salt is an inexpensive and efficient method of furnishing an adequate iodine intake. Again medical supervision is warranted because of the possibility of

the non-toxic goiter developing into the toxic or cancerous type.

In the toxic or hyperthyroid individual, the appetite is usually excessive, but the fuel is burned so rapidly that the resulting energy is dissipated as heat. The patient loses weight and strength in spite of a good appetite; he becomes hot and sweats on little effort, is usually nervous, jittery and has a tremor. The nervousness is usually outward with visible manifestations.

As longevity increases, there has been a noticeable increase in cancers of the thyroid. Because they usually stem from the toxic goiter, it is wise to be suspicious of any swelling or enlargement of the thyroid gland.

Parents are cautioned to watch their children for noticeable enlargement of the glands of the neck, since very often an iodine deficiency will cause the early development of goiter.

With the development of new and effective drugs, the activity of the thyroid gland can be controlled through medical supervision. Some persons respond very well to some of the new medications, while others do not.

In certain individuals, there is no retardation of the enlargement; the thyroid is not controlled to handle properly its energy giving hormone; and surgery must be undertaken to return the individual to good health.
